The people were badly surprised at the result of the election. The way the thing has been going of late, it will be only a few years until these United States will be governed entirely by foreigners. The last State elections show that the people are going to vote for the party that is true to its constituents, at the presidential election there were many promises made that have never been fulfilled. The Democratic party claiming to be in power are a lowering the offices most all to be held by Republicans and foreigners and not having them filled by their own party who have been true to the party, as was promised, and Republicans in power have never allowed such procedure in their ranks, and hence the recent elections show that the voters of this country will not continue to place men in the Congress, Senate and etc who after they are elected betray their constituents.
